

Islington Avenue Streetscape Phase 1

Visioning Workshop / Public Meeting #1

Date: Thursday March 2, 2017
Time: 7:00PM – 9:00PM
Location: Kleinburg Public Library
10341 Islington Avenue

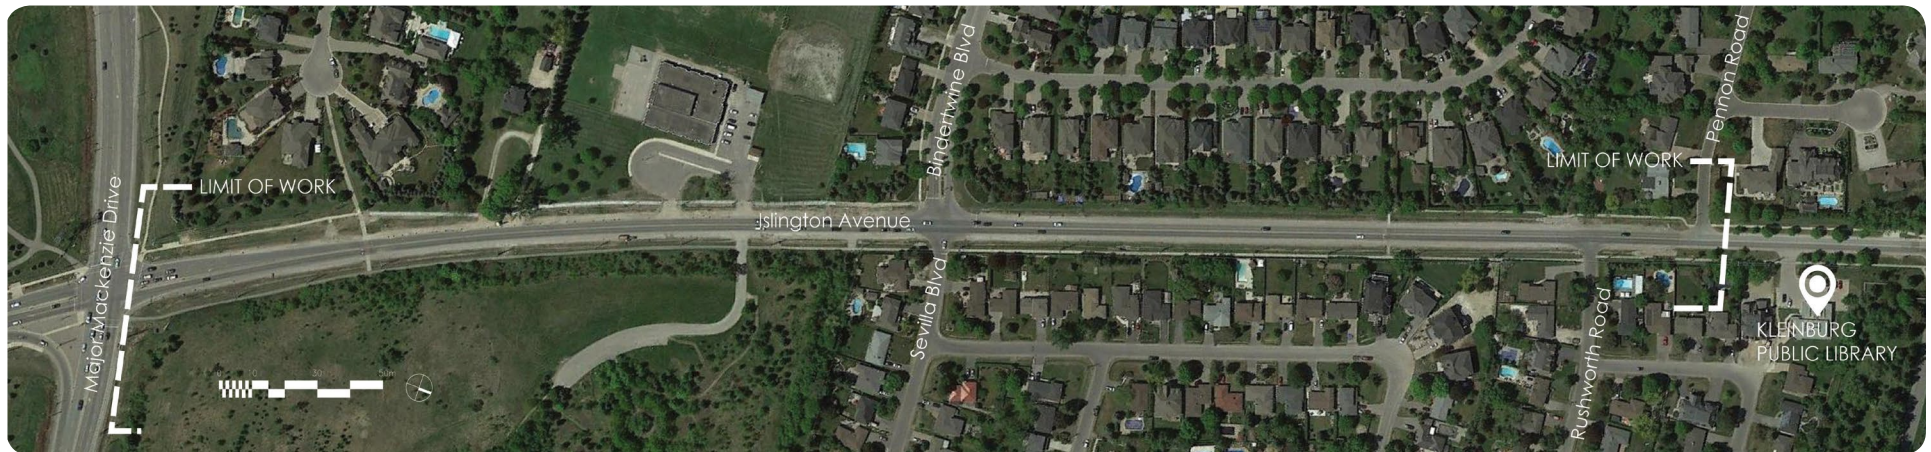

Please RSVP by March 1, 2017 to: Audrey.Farias@vaughan.ca

Please join us on March 2nd to help shape the vision for the streetscape design along Islington Avenue between Major Mackenzie Drive and Pennon Road.

Project Description:

The Islington Avenue Streetscape Phase 1 project represents a unique opportunity to provide a context sensitive village gateway and “natural landscaped streetscape area” within the Kleinburg-Nashville Heritage Conservation District. The streetscape and gateway design will aim to reinforce and enhance the area’s overall heritage conservation goals, be functional and able to thrive within today’s demanding environment, be ecologically and economically viable, capture the non-formal landscape characteristics of country roadsides, and highlight the importance of the Arts in this community. As the gateway to Kleinburg this streetscape will respect, enhance and be a tribute to Kleinburg’s rich built, natural and cultural heritage.

Study Area Plan:

Questions to be considered:

1. What do you want your streetscape to look like?
2. What changes to your streetscape would you like to see?
3. Do you have concerns, such as safety, accessibility, maintenance about the streetscape?
4. Do you wish that the cultural heritage of your neighbourhood be respected and reflected in the streetscape design?
5. Are there particular themes you would like to see reflected in the streetscape design?
6. What are some of the major constraints that need to be addressed in the streetscape?
